Program Description:	Liverpool is a well established tertiary referral center in Urogynaecology and has been running a successful subspecialty training program for many years. There is a weekly MDT where all cases of major surgery are discussed, including monthly involvement with Colorectral and Urology. The service is supported by specialist nurses and physiotherapist. There are 4 urogynaecology clinics, 3 theatre sessions and 2 consultant-led urodynamic sessions per week. In addition there is a weekly perineal clinic; and there are nurse-led clinics and urodynamic sessions every week. Surgical cases include primary and recurrent/complex reconstructive pelvic floor surgery; mid-urethral tapes, colposuspension, laparoscopic sacrocolpopexy and sacrohysteropexy, amongts other. Trainees complete modules in Colorectal, Urology, Neurology and Radiology. The program is run in accordance with the RCOG subspecialty curriculum.
