Program Length: 2 years
Number of Graduates: 5

Specialty Certification: Graduates receive certification from the University of Ottawa
Special Interest Areas: Pelvic Reconstructive Surgery, fistula repair, voiding dysfunction, stress urinary incontinence, accidental bowel leakage, recurrent prolapse repair, laparoscopic and vaginal surgery.

Program Description: Our two year program in Urogynecology and Pelvic Reconstructive surgery prepares graduates for an academic career in Urogynecology. Rotations include Urology, Research, colorectal surgery and core rotations in Urogynecology and Pelvic Reconstructive Surgery. We are a dynamic group of 5 Urogynecologists and one Urologist with training in Female Pelvic Medicine. Our group's large surgical volume and diversity of research interests are assets. A research project is expected of all fellows.
